

HIGH TOP ALUMINIUM HOOP TUNNEL KIT (W) 0.8M X (L) 2M

CONTENTS

3	SMALL HIGHTOP ALUMINIUM HOOPS
1	COVER
12	PIPE CLIPS
10	STEEL PEGS

ASSEMBLY PROCESS

STEP1: Select your starting point in your garden and insert the first hoop into the soil. Once inserted space out the next hoop, we recommend spacing around 1 metre apart. Repeat this process until all hoops are completed.

Please be aware the clips are a tight fit and require some applied pressure to fit in place. We recommend 4 clips per hoop, two spaced around the centre of the hoop and one either side at the base.

STEP2: To attach the netting, lay over the top of the hoops leaving an equal overhang at both ends, enough to secure to the soil with the steel pegs. Use the pipe clips to fasten the netting to the hoops.
